

SNOWSHOE CATTLE CO.

Private Treaty Hereford Bull Sale
FEBRUARY 6, 2016 ~ MILES CITY, MT

Dear Fellow Producers:

We hope the New Year finds you and yours doing well. We are very pleased with the bulls that we have to offer this year. They are good on their feet and legs, raised in some of the toughest terrain that our region can offer. They display thickness that's bred on, not fed on, and from a strong maternal base so that they can produce the F1 females that are in high demand.

One thing that makes this year's offering particularly pleasing is that three quarters of them are sired by our own bulls. It has long been our opinion that in order for our bulls to be good enough to go to work for you, they must be good enough to go to work for us.

This year we offer bulls by Tuff, Paterno and Ribeye 6Z. It has been a sound investment to return these genetics back to our program and these sires have paid off in dividends with what they have done to date. The **Tuff** sons have his thickness, massive middle, and base width. His dam has earned Dam of Distinction honors for her production and his maternal sisters are producing very well in our herd. His daughters show the same promise. The genetic package in **Paterno** reflects the basis of our cow herd. His dam is from our foundation cow family that is highly influential in our herd today. His extra length is passed on to his calves and correlates to extra pounds that they carry. He is incredible in the pasture, covering long distances, steep terrain and his cows with ease. **Ribeye 6Z** also descends from our foundation cow family and ties together its high maternal and red meat performance with reliable calving ease from his sire. He has been a true calving ease bull, maintaining thickness and ample performance, but his untimely passing limits the number of offspring we will have.

We invite you to join us for our Bull Selection Day at Miles City Livestock Commission. We will again bring the bulls to town for the Cowtown Beef Breeders Show. We will have our entire offering at MCLC, with a few of them on display down town. Our Bull Selection Day will follow on Saturday, February 6th.

We hope that you will be able to join us!

Terms & Conditions: Terms of sale are cash. Announced changes in catalog information sale day take precedence over printed materials. All cattle are the buyer's property as soon as sold. Buyers have the option to take their bulls home after the sale or to have their bulls cared for at the ranch of the seller for a reasonable length of time for a moderate cost for feed. (see Winter Feeding). Insurance on your purchase is recommended. Any person attending the sale does so at their own risk. Neither the owners, Miles City Livestock Commission, nor any person connected with the sale, assumes any liability, legal or otherwise. Registration papers will be transferred upon request.

Winter Feeding: All bulls may return to the seller's ranch for winter feeding for a feed cost of \$100 payable at the time of purchase. Bulls returning to the ranch will be cared for in a reasonable manor and will be semen tested. Bulls will be ready for pick up/delivery approximately April 1st, 2016.

Guarantee: Every animal in this sale is to the best of our knowledge, free from disease or defect. Any known defects will be announced or published prior to purchase. All animals are guaranteed breeders. If any animal fails to breed after the first breeding season, it may be returned to the seller, at the buyer's expense, if in good condition and in compliance with Montana health regulations. If the animal proves to be a non-breeder, either an animal of comparable rank will be substituted if available or credit will be given in the following year's sale less salvage value of the original purchase.

Health: Health of this herd is excellent. All bulls selling will pass a breeding soundness exam prior to pick up/delivery. All bulls have been vaccinated at Branding, Pre-conditioning and Weaning with BoviShield Gold 5 and Vision 7. In addition they have been de-wormed at Branding with an injecta-

ble and at Weaning with Safeguard drench. All bulls will be de-wormed again prior to sale day. Individual health papers will be furnished for out of state shipment.

Feeding Program: The bulls have been on a CHS formulated high roughage pellet, corn and free choice hay. They were started on feed at weaning in October and received no creep feed prior to weaning. The bulls have been kept in a small pasture where they have ample space for health and for good feet and legs. With this program we have been able to grow the bulls in good shape without excess fat, and deliver them to our customers ready for breeding.
